

Welcome !

Here at Sharpham, we have been making wine for the last 30 years and are at the forefront UK vine growing. We are widely recognised as producers of some of England's most outstanding wines.

Our stylish wines offer intense fruit flavours and aromas and are made from carefully selected grape varieties, mainly grown on our sheltered slopes overlooking the River Dart. In our winery, we apply Traditional and New World techniques to create distinctive, balanced wines and our awards include regional, national and international medals and trophies.

Here are some of our wines for you to savour - with a meal at the award winning Vineyard Café, or just on their own. Either way – enjoy!

Sharpham Sparkling Wines

Our sparkling wines are made in the traditional method. We don't add CO₂ to make the bubbles. Instead, we take time and care with bottle fermentation and let the fizz develop naturally.

	Bottle
